

REMARKS/ARGUMENTS

The first sentence of the specification under the heading "Cross Reference to Related Applications" is amended to reflect the issuance of the parent application as US 6,794,537.

Claim 1 is amended to recite "a composition comprising Se-methyl-L-seleno-cysteine" to correct the indefiniteness in the wording of the original claim.

In light of the examiner's rejection of Claim 1 under 35 U.S.C 102(b) as being anticipated by prior art, along with the identification of Claim 2 as allowable subject matter, Claim 2 is now amended and presented as an independent claim.

To address the claim objections made by the examiner, claims 4, 6, and 7 are now amended to depend on independent claim 2, with recitation in proper dependent form, and claims 3, 5 and 8 are canceled.

As advised in the Office communication, replacement drawings free from extraneous dotted gray lines are now presented for examination.

Applicants respectfully request that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

SABINSA CORPORATION
